Laboratories

Sudbury Lab Opening

AGAT Laboratories is proud to announce the opening of its newest laboratory in Sudbury, Ontario. This facility will house a full sample reception and preparation facility for AGAT Laboratories' Mining Geochemistry Division. With an area of over 6,000 square feet, this facility will also serve as a sample reception and bottle pick-up branch for all of AGAT Laboratories' scientific divisions which include Mining Geochemistry, Environmental, Agriculture, Food Analysis, Ultra Trace, Oil Sands, Geology and Petrology, Oil and Gas Chemistry, Tribology, Air Quality Monitoring, Reservoir Engineering, and Rock Properties.

AGAT Laboratories has appointed Daniel Frappier to the position of Business Development Representative. Daniel possesses a Mining Engineering Technology diploma from the Cambrian College of Applied Arts and Technology and was formerly employed with Xstrata Nickel and FNX Mining Company as an Engineering Technician. Kellton Eng has been appointed to the position of Sample Coordinator. Kellton holds an H.B.Sc. from Laurentian University.

As Canada's only full service, nationwide laboratory company, AGAT Laboratories' continued growth offers our clients a unique enhanced business relationship by providing them the opportunity to consolidate multi-divisional analytical service requirements with one laboratory vendor. The addition of this facility to our network of laboratories firmly anchors AGAT Laboratories in the Ontario Nickel Belt as we further expand our service offerings and geographical diversity.
